- **Compare and contrast** two enlightenment philosophers from the period of 1550-1800. **Identify** which philosopher illustrated the best ideas for government and provide reasons why. (You may NOT use BOTH Locke and Hobbes, you may use ONE of them- not both)

## Document Analysis

- This will be a challenge, the documents of this era are difficult to work with and a dictionary and annotating the document while not required are suggested. The document will be gone over in class around 10/11.

## Miscellaneous

- I encourage you to use the terms and people in your answers, this will help you improve in your writing of historical essays.
- Each year this was the most difficult unit of the year- understanding the philosophies and writing of the Enlightenment are challenging- work hard but if you become frustrated or are struggling- ASK for help before it's too late
- I suggest getting ahead on the vocabulary if you can. The pacing guide is to balance the work, it will be easier to understand the lessons if there is a foundation of the vocabulary and people first. This also allows you to use the last week of the unit to do the essential questions instead of the vocabulary.
- The vocabulary and people can be tough- make a quizlet or flashcards to help you study these, not knowing these terms and people will make the essential questions very difficult
- It should take about 4 -5 minutes to complete a vocabulary term
- Essential questions should be about 5-8 sentences in length
- If you are spending more than 90 minutes per week on this and falling behind please see me for assistance.
- DO NOT PROCRASTINATE
