Essential Questions-

1. This question is asking you to name and explain the various new technologies (weapons) used in WWI. This question will be covered in 6.2. I suggest at MINIMUM 4 new technologies in your answer.
2. This question is asking you to explain the M.A.I.N. (issues that have been building up for a long time) and the spark that began the fighting. Be sure to explain each long term cause, not just write the name down. You should be able to complete this after 6.1
3. This question is asking you to list the important terms of the Treaty of Versailles and explain your opinion on the fairness of the terms and what you would change if you were there. This answer should be lengthy as you have to list the terms and give your opinion either against or supporting the terms. You will be able to complete this after 6.4

Document Analysis

- This can be done after 6.1
- Make sure you do not write in any of your responses in this section that the document was created to inform students
