

Name _____

Date _____

Handout: What's in Your Closet?

Directions: using the map and chart provided, identify the nations that produced twenty items of your clothing. Try to use various items of clothing, including shirts, pants, socks, shoes, etc. If an article of clothing does not indicate where it's from, choose another. On the map, shade the countries using your colored pencils or different patterns. Be sure to include a Map Key. For example, you write: shirt from Indonesia. On the map, you would color Indonesia one color, and in your key, write 1 = shirt from Indonesia.
